The peak is a syldently that the stand and divorce problem put forth by the Rev. George L. Parker, of this city.

"People of to-day do not know how to love," says Mr. Parker. "From the age of seven the child loves. But, not being trained, he loves crudely. The time to choose a spouse comes. That is an important scientific task. If the child grown up is taught how, to select the mate the selection will be so good that nothing in the world could break the bond.

"A man who truly loved a woman never was divorced. More and more people rush into matrimony without knowing whether they love each other or not."

'The trouble with all the public discussion of divorce is first, that marriage is neglected as a thing to be talk-

applied to marriage.
